KING OF THE SHIBA KINGDOM

Hear ye, hear ye!

The King of the Shiba Kingdom has arrived to the Binance Smart Chain to provide his subjects protection for their investments and rewards for their fealty. King Shiba banishes all reward tokens from his lands, instead providing the kingdom reflection and daily burns to give it the best chance to moon. Sell all peasant shiba and floki tokens you hold and pay tribute to the King of Shibas!

King Shiba Facts

There are

1,000,000,000

\$KINGSHIBA in the Kingdom

We will launch a day after a

200

BNB Presale on Pinksale

King Shiba features low

What is King Shiba?

- KINGSHIBA is a decentralized cryptocurrency token operating on the Binance Smart Chain that can be traded through Pancakeswap.
- Token Address:
0x84F4f7cdb4574C9556A494DaB18ffc1D1D22316C
- Slippage in Pancakeswap should be set to 13% for all buys and sells.

Our Royal Pedigree

The King Shiba Team has proven experience delivering safe crypto projects with the marketing connections that can rocket us to the moon.

Trust is earned through honesty and consistent performance, and we look forward to earning the community's trust in this project.

LAWS OF THE LAND

2% Reflection

King Shiba takes you back to a simpler time when tokens worked for you and not the developers. Sick of putting 1 BNB into a reward token and getting 0.01 BNB back in rewards while the price crashes before your eyes? King Shiba has decreed that his subjects receive reflections for their continuing fealty, so relax and watch your wallet holdings increase.

3% Liquidity

Think of the Liquidity Pool as King Shiba's castle. Properly maintaining and upgrading the castle provides investors more protection from dumps and the stability that they need to feel safe holding their tokens for a long time.

5% Marketing

King Shiba understands that a Kingdom is only as strong as its reputation. We will be hiring an army of diplomats to spread awareness and excitement about the Shiba Kingdom to the ends of the Earth. King Shiba will be the token your grandmother asks you about at the next family gathering, so don't disappoint her.

50% Burn

The Great King Shiba himself has informed the team that his royal tokens are to be precious! Burns are a great way to keep upward pressure on the price and market capitalization of King Shiba. On launch we will be burning 50% of token supply!

REWARDS FOR YOUR FEALTY

Good Shibas get Bones

Holding KINGSHIBA tokens is like burying a big juicy bone into a hole to save for later. Every good shiba knows it takes months of exposure to worms, maggots, and other creatures for bones to reach peak flavor.

In the same way, King Shiba will reward all loyal holders of KINGSHIBA Tokens once our use case is rolled out to the community. Not only does a use case encourage holding, it demonstrates to potential lord and lady investors that we are the rightful ruler of the Shiba Kingdom and deserve their attention.

SHIBA Staking

At a time that will soon be announced by King Shiba's heralds, the website of the Shiba Kingdom will receive a new feature for all holders. We are planning to allow investors to stake KINGSHIBA tokens and BNB into the liquidity pool through our website and receive back SHIBA tokens as your reward. Once the SHIBA starts flowing, it will be like going for a nice long walk with your owner every day of the week. Long live King Shiba!

Your Feudal Rights

Transparency

We know that success is dependent on a community that has sufficient trust in us to hold their tokens for long periods of time. Our large and hard-working team will ensure that the community is kept updated on all future plans.

Competence

You would not believe the frequency with which token devs accidentally send BNB from the marketing wallet to scam marketers. Our experience and skills in this space will ensure the project is delivered with consistent competence.

Integrity

The sad fact is that most token developers swing trade their own token by using inside information to sell high and buy low before abandoning the project. You can expect us to hold ourselves to a much higher standard.

THE KING'S PATH

This roadmap sets out our aspirational plan for the King Shiba token following launch. Many elements are required for a token to succeed soon after launch, and our team has the wide breadth of expertise and experience that is required to deliver this ambitious plan.

Marketing Strategy

Tokens live or die on the quality of their marketing. Our team has the expertise and connections to navigate the crypto marketing minefield.

Our strategy is to push all effective marketing avenues, including the big listing sites, advertisements, and real crypto influencers.

Launch

Day 1
