## The evolution of Memes

By definition, meme is an idea, a behavior or style that spreads by mean of imitation from person to person within a culture and often carries symbloic meaning representing a particular phenomenon or theme. In simple words, gene is for biological evolution and meme is for social evolution.

## Memes + Financial + Technology + Art

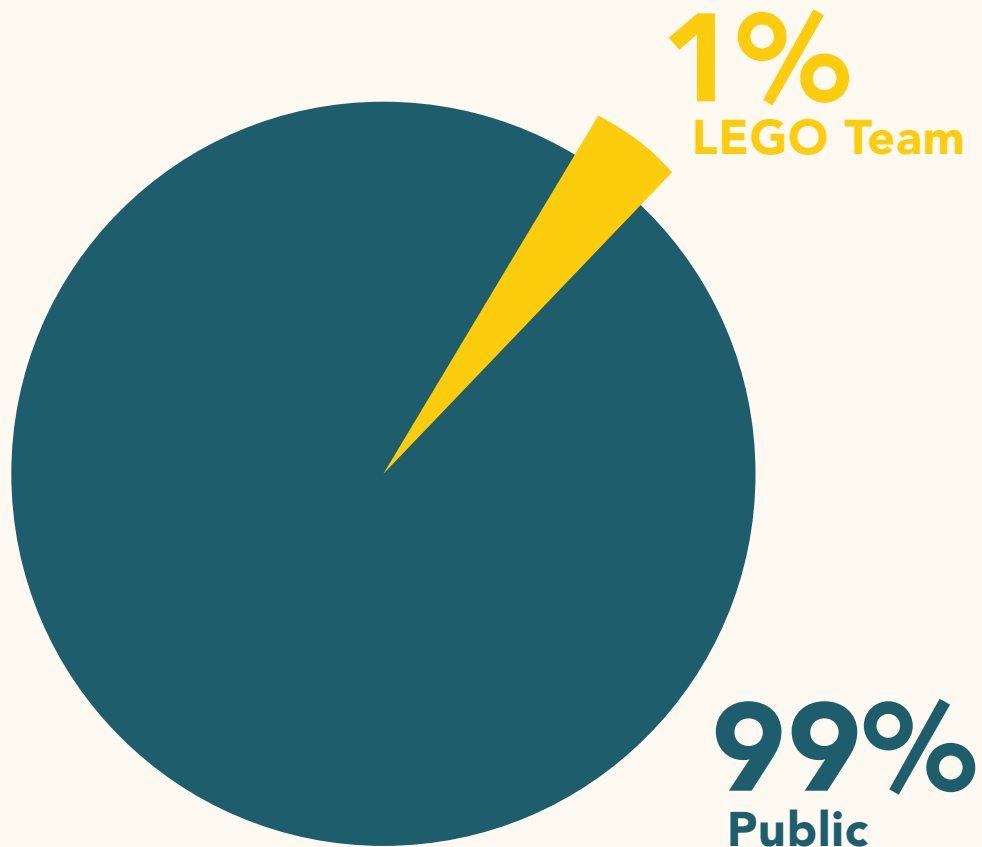

Since the rise of 9gag in 2009-2010, memes became so viral that it shook the whole world. Not only that, but bitcoin was also born on the same year. After some time, DeFi and NFT (Non-Fungible Tokens) were born 2020. These helped so many people who are trying to survive the recession period. DeFi boosted our progressive movements movement in financial and technology and NFT help us to express digitally
