*Powering a real crypto economy*

*Satoshi Island Coin (STC) is the cryptocurrency that powers the Satoshi Island economy. Just like the currency of a country, STC will be required for all commerce on the island and transactions via the Satoshi Island Marketplace. Unlike a traditional government which have centralized control of their monetary policy and have the ability to inflate the supply of their currency, Satoshi Island is operated as a DAO that is run by the Satoshi Island Citizens and has a fixed supply.*

### About Satoshi Island DAO

*Satoshi Island DAO LLC is a non profit organization that is legally recognized as a decentralized autonomous organization. The DAO is the 100% share holder of Satoshi Island Holdings Limited which owns the leasehold on Satoshi Island, putting the members of the DAO in charge of the future of Satoshi Island.*

*As a non-profit, Satoshi Island DAO is a revenue generating-entity that will use all revenue streams and levies that the DAO operates or enacts to grow and sustain the islands economy. The DAO will also hold reserve currencies in different cryptocurrencies from all revenues generated from NFT royalties which will be held, exchanged for stable coins or used to replenish the Satoshi Island Coin reserves by purchasing tokens from the open market.*

## On Island Economy

*All commerce on Satoshi Island will be conducted in Satoshi Island Coin.*

- *Satoshi Island Resort (Official Opening Q4 2022)*
- *All shops, restaurants, groceries, bars, activities and events etc.*
- *All rentals of long term and holiday accommodation.*
- *All services: Maintenance, healthcare, home improvements.*
- *All utilities: Power, water, internet etc.*
- *Transportation to/from and within the island.*

*The introduction of an optional stable Satoshi Island Dollar that will require STC to access is also envisaged for fluctuation free day-to-day transactions, the details and mechanisms of which will be later decided by the DAO.*

## NFT Marketplace Economy

*The Satoshi Island Marketplace will run exclusively on STC and all NFTs subsequent to the initial land NFTs will require the token to buy and sell.*

- *Commercial Land NFTs (Required for any business)*
- *Campus Land NFTs (21 largest blocks surrounding Bitcoin Park)*
- *Citizenship NFTs (Required to visit/live/build on the island)*
- *All license based NFTs (Project, Business, Entertainment etc)*

# Token Distribution

*Satoshi Island Coin has a fixed supply of 21 million tokens mirroring the total supply of Bitcoin.*

# 21,000,000

*Twenty One Million Fixed Supply*

# The Future Of Satoshi Island Coin

*As a cryptocurrency designed to act as a true currency in a real world environment, transaction speed and cost is an important factor. It is for that reason that it is envisaged that STC will make the move from a token to a coin with the introduction of a Satoshi Island custom blockchain or sidechain designed to meet the specifications required of a real currency.*

*The decisions relating to the future of a changing the blockchain, how it will work or if a move is truly necessary will be down to the DAO but the benefits are likely to be substantial. This is due to the fact that not only the economy of Satoshi Island will be blockchain based but also many other aspects of the project will utilize blockchain technology, from decentralized mortgages and keyless entry to homes, to power consumption, storage and generation, blockchain technology will be utilized wherever necessary or beneficial.*

*Satoshi Islands vision is to become the blueprint for a new world powered by blockchain based economies and STC will be central to that vision.*

*Satoshi Island Coin (STC) is issued by Satoshi Island DAO LLC, a non-profit limited liability company registered in the Marshal Islands.*
